## SECOND TERM WEEKLY LESSON PLAN – B8

## WEEK 8

clay and/or pulp paper for appreciation and sharing.  1. Square:  - Start with a rectangular piece of cardboard.  - Measure and mark equal lengths on all four sides of the rectangle.  - Use a ruler or straight edge to connect the corresponding marks, creating four equal sides.  - Cut along the marked lines.  - Fold along the edges to create the square shape.  2. Triangle:  - Begin with a rectangular piece of cardboard.  - Measure and mark the desired length for the base of the triangle on one of the longer sides of the rectangle.  - From each end of the base, measure and mark the same distance to determine the length of the other two sides.  - Use a ruler or straight edge to connect the marks, creating a	Week Ending: 26-05	5-2023 DAY: Subject: Creative Arts And				Design	l	
Content Standard:  B8 1.2.1.Demonstrate understanding and use of drawing, shading, coloring and modelling media and techniques for creative expression of design ideas.  Performance Indicator:  Learners can demonstrate ability to generate design ideas and develop models of simple shapes and forms for appreciation and display  Performance Indicator:  Learners can demonstrate ability to generate design ideas and develop models of simple shapes. PHASE 2: <b>NEW</b>	Draw learner indicator(s).	Pictures and					
LEARNING	Give a class concert (to be video recorded) that begins with a presentation on the style, historical and cultural context of the compositions selected and rehearsed in B8. 2.2.2.4.  Guide learners to determine the genre or style of music they want to create.  Let learners choose instruments and practice with them to create melodies, harmonies, and rhythms.  Learners in groups improvise and play around with different melodies and chord progressions on their instrument.  Learners perform songs they are familiar with. Allow learners to record live performances and share them online through platforms like YouTube, Facebooks, etc.					Videos
